

Fuck the CDC and United States Government and Fuck your BULLSHIT Covid Narrative !

I will NEVER voluntarily take this toxic, dangerous, experimental chemical cocktail for what amounts to the common flu that has been hyped non-stop by the mainstream media since January 2020.

Fauci and everyone else pushing this bullshit Covid narrative should be in jail for crimes against humanity.

Here is a website has more truthful information about this Covid Scamdemic than every .gov website there is:

I really don't like what is going in this country lately, and I don't think that the United States Government represents me or serves my best interests, or the interests of anyone who isn't a billionaire or the head of a major multinational corporation who can afford to lobby congress.

Consider this my vote of NO CONFIDENCE in the United States Government. I sincerely believe that every branch of this government is irredeemably corrupt and morally bankrupt, and that it seeks to destroy the productive middle class of this nation for the benefit of the extremely wealthy.
